

DEVELOPER

Hello, I'm Geethika Shoba

I am a dedicated Developer with a strong passion for AI and machine learning. Currently pursuing studies in AI and ML, I combine my technical skills in web development with a deep interest in cutting-edge technologies to create innovative digital solutions.

Projects

MACHINE
LEARNING

KIDNEY DISEASE DETECTION

Developed a machine learning model in Python to predict kidney disease early based on patient data. Implemented data preprocessing, feature engineering, and various classification algorithms to achieve an accuracy rate of 90%. The project showcases proficiency in data analysis, machine learning, and data-driven healthcare solutions.

WEB
DEVELOPMENT

NETFLIX CLONE

Developed a web-based Netflix clone using HTML, CSS, and JavaScript, replicating the core functionalities of the popular streaming platform. The project included a responsive user interface with features such as user authentication, dynamic content loading, and a movie preview modal.

WEB
DEVELOPMENT

PERSONAL PORTFOLIO

Designed and developed a personal portfolio website to showcase a diverse range of creative projects, including web design and development projects. Leveraged HTML, CSS, and JavaScript to create an elegant and responsive site that highlights skills, work experience, and accomplishments
